

STORM SUIT JH-SM-G & BP-SM-G

JH-SM-G

BP-SM-G

Description

Dromex® JH-SM-G and BP-SM-G, PVC, heavy duty, storm protective attire, is a water-resistant jacket and bib pants suit, protecting the body and undergarments from the hazards of rain and water splashes.

The jacket design consists of a fixed hood with drawstring, 2 pockets with storm flap, plastic double snap closure at the neck with an internal storm cuff that prevents water from running down your sleeve.

The bib style trouser features a quality, adjustable webbing suspender with plastic buckle.

All seams are welded for 100% waterproof protection.

Suitable for applications where there is exposure to rain, used in general mining, fishing, outdoor, and contractor applications.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.
The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection.
These storm suits are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.
The information contained herein is intended to assist the wearer in the selection of personal protective equipment.
Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the storm suits suitability for the intended use.
Keep clear of open flames.
All storm suits should be thoroughly inspected before and after use to ensure no damage is present.

Compliance & Conformity

This storm suit is designed for protection against foul weather increments only as per the EN directive 89/686/EEC. The garment meets the requirements of ergonomics, harmless materials, comfort, aeration, and flexibility as well as the water tightness of the garment.

Packaging, Storage & Obsolescence

The standard packaging for storm suits is as follows:
Each jacket is packaged in a polybag and sold as 20 units in a carton.
Each bib pants is packaged in a polybag and sold as 20 units in a carton.
Store the storm suits in the original packaging in a cool dry place and out of direct sunlight.

Cleaning & Maintenance

Storm suits should not be left in contaminated condition if re-use is intended especially if potential hazards exist.
The garments should be decontaminated before storage and re-use as indicated below:
Do not machine wash.
Do not bleach.
No bleach product may be used as the garment is not colourfast or structurally designed to withstand any bleach.
Do not iron.
This garment may not be smoothed or finished with an iron.
Do not dry clean.
This garment may not be commercially dry-cleaned.
Cleaning of this garment is best done using a mild detergent with deodoriser, wipe clean or air dry.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Storm suits should be disposed of considering the hazardous substance they were used for. Please consider recycling.
